

Maximize your home's value now.  
Pay after your home sells.

## WINDERMERE **READY**

Through the **Windermere Ready** program, we can front your home improvement costs and provide concierge services to make your home more competitive on the market. From decluttering and deep cleaning to major repairs or replacements, together we'll set your home up for selling success.

A small upfront investment can yield a big payoff when selling your home. To help with that process, Windermere Ready provides a loan to cover the costs of upgrades like painting, landscaping, cleaning, and staging. You'll receive the funds quickly and pay nothing until your home sells.

I will work with you to determine which improvements will have the biggest impact at market. You can choose your own service providers, or I can connect you with experienced local contractors.
